

We're Wild About Play!

Swing on into the TRC where tons of adventurous play activities await! Imagination and creativity will go wild when kids engage with our **Animal Planet Wildlife Set** containing action figures, safari animals, vehicles and more! Our **Easy Twist Animal Builders** will keep tiny hands entertained as they twist and turn pieces to build wild animals.

Hisssss-terical laughter will erupt when kids play the game, **Rattlesnake Jake!** Jake's tail has an ominous rattle that is sure to create anticipation as little ones take turns to retrieve the stolen gold nuggets! This game is great for fine motor and social skills, BUT BEWARE— during someone's turn . . . Jake will STRIKE!

The classic game of **Hungry, Hungry Hippos** will be tons of fun! As the hippos gobble up marbles, little ones practice their counting skills and develop language

concepts such as “most” and “least” during the process!

Everyone knows that a hippo’s favorite dance style is Hip Hop—so get movin’ and groovin’ as you dance and sing using either our **Lion King** or **Rock & Roar Karaoke** machines!

A game called **Hungrry Four Memory & Movement** provides a *grrreat* opportunity to address motor and memory skills! Kids act out animal actions and feed four animal figures various foods that have gotten totally mixed up! This game also incorporates gross motor skills, which help to develop body awareness and may even support self-regulation (ability to manage emotions, behaviors, energy levels).

A trumpeting of laughter will be heard when children feed a selection of peanuts to our **Learn with Me Shapes Elephant!** Colors, shapes, eye-hand coordination, and listening comprehension are just a few of the “r-elephant” skills that are offered during play with this toy!

It’s a jungle out there . . . safari a good time, stop by for a wild adventure in the TRC!
